SUBJECT INDEX

Adolescents
  identity formation in, 49
  symptom distress and life situation in, 23
AIDS patients, caregiving for, 12
Antiemetics, with cancer chemotherapy, 409
Antineoplastic chemotherapy, oral care with, 34
Anxiety, in family of bone marrow transplant patient, 244
Appalachian women, health beliefs of, 231
Assessment, of major depression in cancer patient, 168
Attitudes, in oral care with antineoplastic chemotherapy, 34
Autologous stem-cell transplantation, quality of life with, 368

Behavior therapy, for depression in cancer patients, 155
Bone marrow transplant, family members of patient with, 244
Bone marrow transplant nurse, burnout and job satisfaction in, 360
Brain tumor, early detection of recurrent, 277
Breakthrough doses, nurses' knowledge about, 201
Breast cancer
  autologous stem-cell transplantation for, 368
  consistency of patient information on, 274
  health beliefs of rural Appalachian women about, 231
  quality of life with, 398
  screening for in low-income ethnic groups, 348
Breast self-examination
  health beliefs of rural Appalachian women about, 231
  peer education model for teaching, 49
  social support and, 42
Burnout
  in bone marrow transplant nurses, 360
  in pediatric oncology nurses, 414

Cambodian community, cancer screening in, 348
Cancer detection
  by nursing students in community health, 348
  by positron emission tomography, 277
Cancer genetics, testing for, programmed instruction on, 285
Cancer pain
  nurses' knowledge about, 201
  powerlessness in relation to, 422
  relaxation and imagery interventions for, 79
  spiritual distress with, 376
  verbal rating scale to measure intensity of, 88
Cancer predisposition testing, programmed instruction on, 285
Cancer screening, nursing students in coordinating, 348
Cancer therapy, associated late effects of, 392
Carcinogenesis, genetics of, programmed instruction on, 213
Caregivers, of elderly patients, decision making by, 389
Caregiving
  for dying patients, 115
  to persons with cancer and AIDS, 12
Caring encounters, from cancer patient's perspective, 120
Category scale, assessment of nausea on, 260
Cervical cancer, genital human papillomavirus and, 353
Chemotherapy
  antineoplastic, 34
  high-dose, quality of life with, 368
  side effects of, 430
  supportive therapy and oncology nurse's role in, 409
Chinese parents of cancer patients, distress symptoms and support systems of, 94
CHOP therapy, side effects of, 430
Clinical trials, expanding nursing role in, 343
Cognitive-behavioral interventions, for depression in cancer patients, 155
Communication, consistency of, 274
Community health, cancer detection by nursing students in, 348
Community nurses, home visits by after discharge from hospital, 105
Continuing education credit
  on genes and inheritance, 151
  on genetic basis of cancer, 226
  on genetic testing for cancer predisposition, 300
  on Human Genome Project, 75
  for late effects of cancer therapy, 403
Continuity of care, home visits and, 105
Coping
  of family of bone marrow transplant patient, 244
  with recurrent cancer, 178
Counseling, spiritual, with advanced cancer pain, 376
Culture, sexual function and, 251

Decision making
  about prostate cancer treatment, 187
  by elderly patients and caregivers, 389
  in terminally ill patient, 384
Depression
  cognitive-behavioral interventions for, 155
  diagnosis and treatment of in cancer patients, 168
Descriptor scale, for pain measurement, 88
Diagnosis, of major depression in cancer patient, 168
Distress symptoms, in Chinese parents of children with cancer, 94
Dutch community, powerlessness of nurses caring for patient with pain, 422
Dying, phenomenological study of nurses caring for, 115
Dynamic integration model, 376

Early detection, in older adults, 381
Educational opportunities, 76, 152, 227, 301, 404, 440
Elderly
  decision making by, 389
  health promotion and early detection in, 381
Empowerment, of men diagnosed with prostate cancer, 187
Equianalgesia, nurses' knowledge about, 201
Ethnic groups, cancer screening in, 348
Expert knowledge, for terminally ill decision-making, 384

Family
  of bone marrow transplant patient, 244
  in caregiving for cancer patients with AIDS, 12
  of elderly patients, decision making by, 389
Fatigue, with CHOP therapy, 430
Female cancer, sexual function and, 251

Gene therapy, programmed instruction in, 129
Genetic testing, programmed instruction on, 285

Genetics, programmed instruction on, 62, 129, 213
Genital human papillomavirus, risk factors for, 353

Health beliefs, of rural Appalachian women about breast self-examination, 231
Health care system, caring and uncaring encounters within, 120
Health professionals, caring and uncaring encounters with, 120
Health promotion, in older adults, 381
Health-related quality of life, with autologous stem-cell transplantation for breast cancer, 368
Hispanic women, sexual function in, 251
Holistic pain management protocol, assessment of, 376
Home visits, for cancer patients after discharge from hospital, 105
Hong Kong, cancer nursing in, 197
Hospital discharge, home visits after, 105
Human Genome Project, programmed instruction on, 62
Human papillomavirus, risk factors for, 353

Imagery
  analysis of literature on, 79
  for depression in cancer patients, 155
Information, about prostate cancer treatment options, 187
Inheritance, programmed instruction on, 129
Instrument development, for symptom distress and life situation in adolescents with cancer, 23

Job satisfaction, in bone marrow transplant nurses, 360

Laotian community, cancer screening in, 348
Late effects, programmed instruction on, 392
Leukemia, quality of life experiences with, 100
Life situation, of adolescents with cancer, 23
Low-income communities, cancer screening in, 348
Lymphoma, non-Hodgkin's, side effects of CHOP therapy for, 430

Mammography, nursing students in coordinating, 348
Morphine, extended release, nurses' knowledge about, 201
Mucositis, with antineoplastic chemotherapy, 34
Myelosuppression, supportive therapy with, 409

Nausea
  with CHOP therapy, 430
  verbal and visual symptom assessment of, 260
Needs, of family of bone marrow transplant patient, 244
Needs assessment
  for in health promotion and early detection in older adults, 381
  for occupational therapy referral, 267
Neoplasms
  breast, 42
  cognitive-behavioral interventions for depression with, 155
  interventions for pain of, 79
  oral care with antineoplastic chemotherapy for, 34
Neutropenia, supportive therapy with, 409
Numeric rating scale, for pain measurement, 88
Nurse, expanding role of in clinical trials, 343
Nurse-patient relationship, caring and uncaring encounters in, 120
Nursing
  caring and uncaring encounters within, 120
  research agenda for, 335
Nursing knowledge, about equianalgesia and opioid dosing, 201
Nursing practice, research priorities of, 335
Nursing students, cancer detection activities coordinated by, 348
Nursing summaries, in clinical trials, 343

Occupational therapy referral, needs assessment for, 267
Oncology nursing, phenomenological study of, 115
Opioid dosing, nurses' knowledge about, 201
Oral care, with antineoplastic chemotherapy, 34

Pain
  spiritual distress and, 376
  verbal rating scale for measuring, 88
Patient
  consistency of information to, 274
  perceptions of caring and uncaring encounters by, 120
Pediatric oncology nurses, stress management for, 414
Peer education model, for teaching breast self-examination, 49
Physical well-being, in breast cancer patient, 398
Positron emission tomography, in early detection of recurrent brain tumors, 277
Powerlessness, in relation to pain, 422
Prostate cancer, empowerment of men with, 187
Psychiatry, in treatment of major depression, 168
Psychological morbidity, in bone marrow transplant nurse, 360
Psychosocial factors
  for cancer patients with AIDS, 12
  in caring for cancer patient, 120
  in family of bone marrow transplant patient, 244
  in recurrent cancer, 178
Psychotherapy, for depression in cancer patients, 155

Qualitative text analysis, for quality of life experiences with acute and chronic leukemia, 100
Quality of life
  in adult patients with cancer, 236
  with autologous stem-cell transplantation for breast cancer, 368
  in breast cancer patient, 398
  with cancer chemotherapy, 409
  different profiles in acute and chronic leukemia, 100

Radiotherapy, consistency of patient information on, 274
Reciprocity, in caring for dying patients, 115
Recurrent cancer
  early detection of, 277
  psychosocial meaning of, 178
Rehabilitation, needs assessment for, 267
Relaxation
  analysis of literature on, 79
  for depression in cancer patients, 155
Research
  agenda for cancer nursing practice, 335
  protocol in clinical trials, 343
Risk factors, for genital human papillomavirus, 353
Role preferences, of terminally ill patient, 384
Rural women, health beliefs of, 231

Sexual function, in Hispanic women, 251
Side effects
  of CHOP therapy, 430
  going beyond, 3
Social support, breast self-examination and, 42
Social well-being, in breast cancer patient, 398
Southeast Asian community, cancer screening in, 348
Spiritual distress, with advanced cancer pain, 376

Staff education, on consistent patient communication, 274
Stem-cell transplantation, autologous, quality of life with, 368
Stress
  management of in pediatric oncology nursing group, 414
  reactions to in Chinese parents of children with cancer, 94
Suicide, with major depression in cancer patients, 168
Support systems, for Chinese parents of children with cancer, 94
Supportive therapy, for cancer chemotherapy patients, 409
Survival rates, going beyond, 3
Symptom assessment, on verbal category scale vs. visual analog scale, 260
Symptom distress
  in adolescents with cancer, 23
  in adult patients with cancer, 236

Terminally ill patient, decision-making in, 384
Therapy, cancer nursing as, 3
Tiffany, Robert, in memoriam, 1
Titration, in equianalgesia and opioid dosing, 201
Transdermal fentanyl, nurses' knowledge about, 201
Tumor recurrence, early detection of by positron emission tomography, 277

Uncaring encounters, from cancer patient's perspective, 120

Verbal category scale, assessment of nausea on, 260
Vietnamese community, cancer screening in, 348
Visual analog scale
  assessment of nausea on, 260
  for pain measurement, 88

Women
  breast cancer screening of in low-income ethnic groups, 348
  breast self-examination in, 42, 49
  Hispanic, sexual function in, 251
  rural, health beliefs of, 231
